

Lichens

St. David's, Little Dewchurch Grid. Ref. SO 529317

6 March 2006 Recorder Joy Ricketts.

<i>Acarospora fuscata</i>	<i>Lecidea fuscoatra</i>
<i>Aspicilia calcarea</i>	<i>Lecidella scabra</i>
<i>Belonia nidarosiensis</i>	<i>Lecidella stigmatea</i>
<i>Buellia aethalea</i>	<i>Lepraria incana</i>
<i>Buellia ocellata</i>	<i>Lepraria lobificans</i>
<i>Caloplaca citrina</i>	<i>Melanelia fuliginosa fuliginosa</i>
<i>Caloplaca crenulatella</i>	<i>Melanelia subaurifera</i>
<i>Caloplaca flavescens</i>	<i>Ochrolechia parella</i>
<i>Caloplaca flavocitrina</i>	<i>Parmelia sulcata</i>
<i>Candelariella aurella</i>	<i>Pertusaria amara</i>
<i>Candelariella vitellina</i>	<i>Physcia adscendens</i>
<i>Cladonia chlorophaea</i>	<i>Physcia tenella</i>
<i>Diploicia canescens</i>	<i>Polysporina simplex</i>
<i>Diplotomma alboatrum</i>	<i>Porpidia tuberculosa</i>
<i>Flavoparmelia caperata</i>	<i>Protoblastenia rupestris</i>
<i>Hypocenomyce scalaris</i>	<i>Psilolechia lucida</i>
<i>Lecanora albescens</i>	<i>Rhizocarpon reductum</i>
<i>Lecanora campestris</i>	<i>Tephromela atra</i>
<i>Lecanora conferta</i>	<i>Toninia aromatica</i>
<i>Lecanora dispersa</i>	<i>Verrucaria baldensis</i>
<i>Lecanora expallens</i>	<i>Verrucaria glaucina</i>
<i>Lecanora muralis</i>	<i>Verrucaria hochstetteri</i>
<i>Lecanora orosthea</i>	<i>Verrucaria macrostoma furfuracea</i>
<i>Lecanora pannonica</i>	<i>Verrucaria muralis</i>
<i>Lecanora polytropa</i>	<i>Xanthoria mougeotii</i>
<i>Lecanora soralifera</i>	<i>Xanthoria parietina</i>
<i>Lecanora sulphurea</i>	<i>Xanthoria polycarpa</i>

A fairly large, well cared for churchyard with a grassland management plan. A brown hairy caterpillar was found resting on a memorial in the winter cut section, quite near to the yew tree. There may be other entomological interesting creatures hiding in the grass tussocks.
